

FEDIMAR KAYL M. RABANZO

SENIOR FRONT-END ENGINEER | REACT | NEXT.JS | TYPESCRIPT | SHOPIFY

Olongapo City, Philippines | frabanzoo@gmail.com | 0976 040 9290 | Portfolio: findkaylrabanzo.vercel.app/v3 | GitHub: github.com/kayl06

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 7+ years of experience building production web applications, SaaS platforms, e-commerce experiences, dashboards, and internal tools. Strong expertise in React, Next.js, TypeScript, JavaScript, Tailwind CSS, responsive UI, component architecture, API integration, accessibility, and performance optimization. Also experienced in Shopify theme development, Laravel, Node.js, REST APIs, and databases, allowing me to work effectively across the stack. Experienced in owning features and applications from requirements and architecture through implementation, testing, deployment, and production support.

CORE SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Native, Expo, Responsive Design, Accessibility, Component Architecture, Reusable Components

State & Data: Redux Toolkit, RTK Query, TanStack Query, Zustand, Context API, Formik, Yup, Asynchronous Data Fetching, Client-Side Validation

Shopify: Shopify, Liquid, Online Store 2.0, Storefront API, Admin API, Shopify CLI, Metafields, Metaobjects, AJAX Cart, Product Swatches, Bundles, Quick Add, Product Recommendations

API & Integrations: REST APIs, GraphQL, AJAX, Webhooks, OAuth 2.0, JWT, HMAC Authentication, Third-Party Integrations, API Error Handling

Backend & Databases: Node.js, Express.js, Laravel, PHP, PostgreSQL, MySQL, MariaDB, Supabase, SQL

Testing & Development: Chrome DevTools, Postman, API Testing, Cross-Browser Testing, Component Testing, Workflow Testing, Git, GitHub, Docker, CI/CD

Cloud & Tools: AWS, Vercel, Firebase, Figma

AI-Assisted Development: Cursor, Claude Code, GitHub Copilot, Codex, ChatGPT

PROFESSIONAL EXPERIENCE

SENIOR FRONT-END DEVELOPER

Chykalophia | Feb 2024 – Aug 2026

- Built and maintained production web and mobile applications using React, Next.js, TypeScript, React Native, Tailwind CSS, Laravel, and REST APIs.
- Developed reusable component architectures and data-driven interfaces including authenticated dashboards, operational workflows, complex forms, tables, charts, calendars, and responsive layouts.
- Translated Figma designs, product requirements, and business workflows into accessible, responsive, and maintainable frontend experiences.
- Implemented application state management and asynchronous data fetching using Redux Toolkit, RTK Query, TanStack Query, and Zustand.
- Integrated frontend applications with REST APIs and backend services, handling authentication, validation, loading states, asynchronous workflows, and API errors.
- Improved existing codebases through component reuse, frontend architecture improvements, performance optimization, maintainability improvements, and production troubleshooting.
- Investigated browser, network, API, and application issues using developer tools and production logs; tested fixes and supported reliable releases.
- Collaborated with designers, developers, project managers, and stakeholders in a distributed Agile environment.

FREELANCE FRONT-END, FULL-STACK & SHOPIFY DEVELOPER

E-Commerce and SaaS Clients | Jan 2023 – Present

- Build production web applications, SaaS interfaces, and e-commerce experiences using React, Next.js, TypeScript, Tailwind CSS, Shopify Liquid, Node.js, and Laravel.
- Develop customer-facing storefronts, dashboards, administrative interfaces, workflows, landing pages, and data-driven applications.
- Build and customize Shopify themes using Liquid, HTML, CSS, JavaScript, Online Store 2.0, JSON templates, reusable sections, snippets, metafields, and metaobjects.
- Implement storefront functionality including AJAX cart drawers, product swatches, quick add, bundles, advanced filtering, product recommendations, upsells, cross-sells, promotional features, and responsive landing pages.

- Translate Figma designs and business requirements into production-ready responsive interfaces with attention to visual accuracy, usability, accessibility, and mobile experience.
- Integrate REST APIs and third-party platforms including Shopify, Kipu, CollaborateMD, QuickBooks, Power BI, Microsoft Entra ID, Klaviyo, authentication providers, and payment services.
- Optimize storefront and application performance, accessibility, SEO, Core Web Vitals, cross-browser compatibility, and frontend reliability.
- Work directly with stakeholders to clarify requirements, estimate work, implement features, perform QA, deploy changes, and resolve production issues.

FULL-STACK WEB DEVELOPER

PlayAsia | May 2022 – Apr 2024

- Developed and optimized responsive customer-facing e-commerce features and internal administration tools within a large production application.
- Built frontend workflows for e-commerce operations, purchasing processes, administrative tools, and customer-facing functionality.
- Integrated application features with payment providers and third-party APIs while handling data validation and application state.
- Developed automation and purchasing workflows that supported internal business operations.
- Investigated and resolved production issues across frontend applications, APIs, and application services.
- Collaborated with developers and stakeholders to implement new functionality while maintaining existing production systems.
- Recommended UI, performance, and technical improvements to improve usability and maintainability.

FULL-STACK WEB DEVELOPER

Dunbrae Subic Incorporated | Oct 2020 – May 2022

- Built responsive web applications, dashboards, and business interfaces for internal operational workflows.
- Modernized legacy interfaces and improved frontend usability and maintainability.
- Connected frontend applications to backend services and third-party APIs.
- Developed business workflow automation and data-driven application features.
- Worked with leadership and clients to clarify requirements, investigate defects, and deliver maintainable solutions.

JUNIOR FULL-STACK WEB DEVELOPER

IDESS Interactive Technologies | Jul 2019 – Oct 2020

- Built and maintained e-learning websites and web applications using PHP, JavaScript, jQuery, HTML, and CSS.
- Migrated and modernized legacy PHP and jQuery interfaces.
- Developed synchronization modules connecting web and desktop systems.
- Implemented responsive interfaces and maintained existing production applications.

SELECTED PROJECTS

TIMEOFF MANAGEMENT

Owned the end-to-end development of a multi-tenant employee leave management platform covering application architecture, database design, authentication, UI/UX, integrations, and deployment.

Technologies: **Next.js, React, TypeScript, Tailwind CSS, PostgreSQL, Supabase, Zustand, Google Authentication**

THE HOPE HOUSE ADMIN

Built an internal platform that centralized finance, resident, user, and operational workflows through integrations with multiple external systems.

Technologies: **Next.js, React, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query, Laravel REST APIs, MariaDB, Redis, Docker, AWS**

CAREDOCS

Developed modular web and mobile workflows supporting staff and facility management, onboarding, resident records, tasks, billing, calendars, and medication administration.

Technologies: **React, React Native, Expo, TypeScript, Zustand, RTK Query, TanStack Query, Formik, Yup, Laravel APIs**

SELECTED E-COMMERCE EXPERIENCE

ODD PIECES - Shopify theme development including reusable Liquid components, AJAX cart functionality, product pages, bundles, navigation, promotions, metafields, inventory, preorder functionality, and mobile UX improvements.

Fedimar Kayl Rabanzo | Senior Front-end Engineer | React | Next.js | TypeScript | Shopify

AGENT84 - Shopify theme development including reusable sections, cart drawer, product swatches, product pages, quick add, advanced filtering, navigation, and responsive landing and collection pages.

BLOSSOMDALE - Custom Shopify functionality including advanced search, cart drawer, cross-sell and upsell experiences, empty-cart recommendations, and quick-add interactions.

SKIVYS - Responsive, conversion-focused landing pages and e-commerce funnels optimized for mobile and desktop experiences.

EDUCATION

Bachelor of Science in Information Technology | Gordon College, Olongapo City

Associate in Computer Technology | Gordon College, Olongapo City
